CARILLON D'ANGELUS

2015

Saint-Émilion, Grand Cru

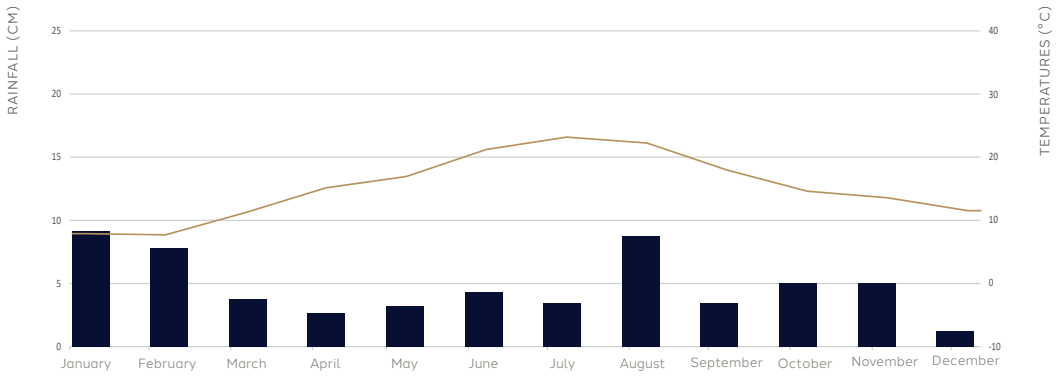

2015 was a blessed, dreamt-of year, with favourable weather conditions from spring to harvest. Each step took place under ideal conditions: flowering was even, and then the necessary rainfall for the growth of the vines came before the very dry months of June and July. Véraison went like a wonder. The pips started to ripen very early. August, with some timely rains and mild temperatures, allowed the vine to develop well and for the grapes to ripen in a balanced way. The fine days and cool nights in September, accompanied by some showers, favoured the ripening of the tannins. The grapes were simply magnificent, a rare and sublime moment.

A brilliant ruby red colour. A nice bouquet of fresh red fruits on the nose. The attack and mid-palate are well established, with tight tannins, lots of delicious flavour and an appealing finish.

BLEND 50% Merlot, 40% Cabernet Franc,
10% Cabernet Sauvignon

HARVEST September 17th to October 8th

IN SUPPORT OF A SUSTAINABLE VINEYARD

At Angelus, the terroirs are the result of a perfect balance between climate, soils, water reserves, vines and the people working there. Maintaining this balance, preserving the long-term future of the vineyard and its environment, optimising resources and enhancing biodiversity are central to our daily work. This concern for the environment gave rise to our commitment to virtuous and responsible farming.

BRINGING LIFE TO THE SOILS

Grass cover crops in the rows
Natural de-compacting of the soils
Mycorrhizal development
Ecological surface nests
and support for airborne insect life.

ENHANCING BIODIVERSITY

Planting hedgerows and trees around our vineyard plots
Limiting inputs and proliferation of pests
Establishment of polyculture.

INDIVIDUALISED VINEYARD PRACTICES

Pruning methods that respect the flow of the sap
Spraying to prevent disease
Adapted thinning-out of shoots
Early de-leafing and crop thinning.
